Durham, NC

Expected May 2022

New Delhi, India

April 2014 - March 2017

Experience

Intel ISEF & IRIS National Fair

LA, California

International Science Fair, Innovative Research

May 2017

- Represented India internationally, and was awarded 3rd place in the world in my category for my project about a two phase electrolyser with a novel MWCNT redox mediator, at 2017 Intel ISEF.
- Conducted original research in IIT Delhi's lab for 3 weeks, and generated 2400+ Data points for use in our research paper.
- Granted membership to Sigma Xi, the oldest Science Honor Society.
- Recognized at the 2016 IRIS National Fair at Pune, India, and then selected as a member of team India for the 2017 Intel ISEF.

Zenith Vipers

New Delhi, India

UI/UX Designer, Developer, Field Research

May 2018 - July 2018

- Led the UI design of a project for a real estate company, involving designing 2 fully interactive prototypes, one for an app and one for a web portal, saving several hours of the team's developers.
- Spent a week in a small city (Gwalior), and interacted with several academic institutions as part of a market research project for an innovation lab to be set up in schools and colleges.

Edvarsity

New Delhi, India

Developer, Designer and Tech Consultant

June 2018 - August 2018

- Assisted a business to start, first by just consulting about enterprise tech, but then eventually single-handedly building their entire website, user database and registration system, SEO, and analytics.
- Designed their logo, marketing palette, and other branding items.

Humblefools

New Delhi, India

Freelance Graphic Designer, Social Media

January 2017 - Present

- Launched my own page/designer identity on Instagram (@humblefools), about visual arts and graphic design.
- Acquired several small scale paid jobs for MUNs, local businesses, etc.
- Led a team of 18 students as the editor in chief as well as the design head of 'The Columban' s 75th special edition. Also built a webpage
